About SYIC

Established in 1979, SYIC is a professional manufacturer of precise tool holders, cutting tools, angel heads, boring series and collets with more than 500 employees. The taper types of tool holders we manufacture include BT (MAS403), CAT (ANSI B5.50), DAT (DIN69871-A), HSK (DIN69893), PSC (ISO26623-1), VDI (DIN ISO10889) and straight shank holders.

SYIC is certified to ISO9001 and ISO14001. With contribution to the design, production and sale of high accuracy and inventive products, SYIC has over 300 pieces of patents worldwide. SYIC keeps investing in high-end equipment and measuring instruments from Japan and Europe to implement excellent quality control and manufacturing capability.

SYIC keeps the core value "Quality creates reputation; reputation ensures quality" to impress our customers, possessing professional technical skills to provide comprehensive solutions for customers, improving customers' machining efficiency, and enhancing the mutual competitiveness with customers. Based on the mission of "Excellent service, supreme quality," SYIC will continue to launch more high precision products to customers.

Quality Creates Reputation; Reputation Ensures Quality

SYIC holds the spirit of sincerity, responsibility, innovation and sustainable growth and builds mutually beneficial relationship with customers. With our core value "Quality creates reputation; reputation ensures quality," SYIC continues to improve the product design, product quality and service according to ISO 9001:2015 and ISO 14001:2015, and obtains profits to contribute to customers and the society.

Company history

1979

Mr. Simon Chen founded SYIC group, the products including Drill Sleeve, Lathe Center and Bull Nose Center.

1984

Started to export products and participated in exhibitions globally to display SYIC products.

1988

Released new products like 5C, R8 Collet, and Milling Chuck.

1991

Established company CHAIN HEADWAY MACHINE TOOLS and focused on the domestic market.

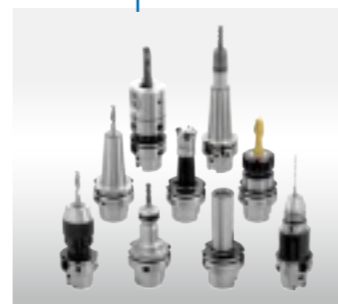

1998

-Adopted ISO 9002 Quality Management System and Certification.
-Launched tool holders for machining centers, Z axial preset gauge and Rough Boring Head.

2001

Launched HSK tool holders for machining centers.

2006

-Established company CTY TNHH SYIC VN in Ho Chi Minh City to open up Vietnam market.
-Released new products: 90° SAM Angle Head Holder, Power Good Clamping Nut, and DualDRIVE+ double face contact tool holders.

2007

-Certified to ISO14001 Environmental Management System.
-Released Indexable Cutting Tools.

2011

Completed construction of SHINTEK second factory and started manufacturing.

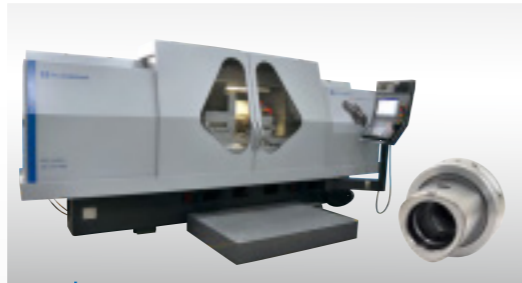

2012

90° SAR Angle Head Holder was released.

2014

PSC tool holder went into production by grinding machine from Switzerland.

2015

-Certified to TTQS Taiwan Training Quality System in bronze and received SGS 18 Years Merit Award.
-Released PSC Quick Change System for Lathe.

2016

Certified to of ISO 9001: 2015 and ISO 14001: 2015.

2018

SHINTEK Factory B opened.

2019

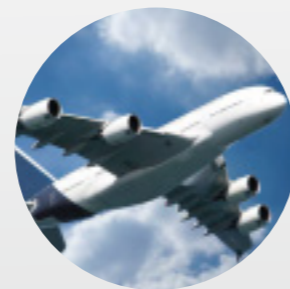

Opening of affiliated company CHAIN HEADWAY MACHINE TOOLS new building to expand business.

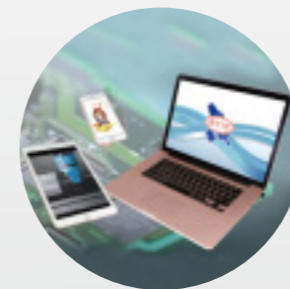

Main products

High quality is necessary to win customers' trust. With the core value "Quality creates reputation; reputation ensures quality," SYIC focuses on quality control in every step. From R&D, manufacturing, shipping to after-sale service, SYIC provides professional technical products and satisfy all demands from different industries.

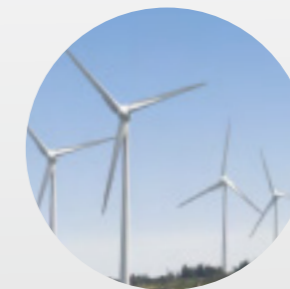

Aerospace industry

Consumer electronics industry

Automobile parts industry

Energy industry

Mold & die industry

Business concept

Meet the equilibrium between supply and demand to create reciprocity

SYIC products are exported worldwide and meet market demands. We stand side by side with customers and suppliers and fight together to achieve excellence.

Bright Future of SYIC

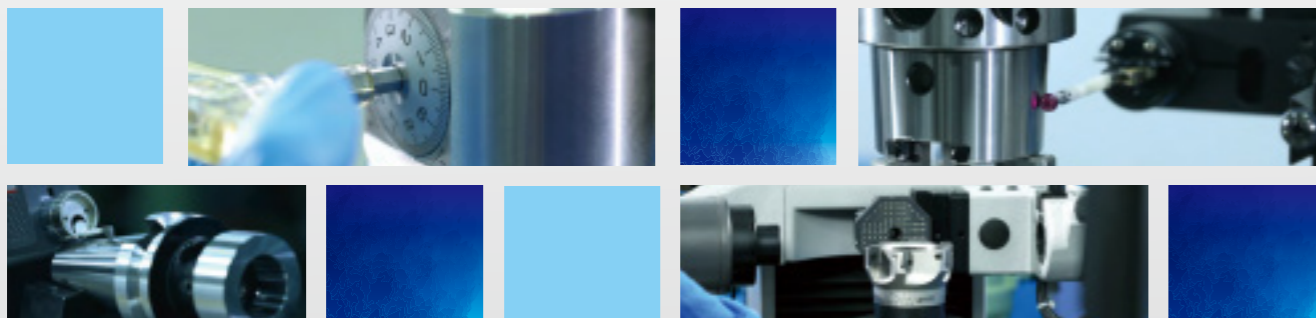

As a Taiwan-based company, SYIC aims for reaching customers in the global market. Based on our core value "Quality creates reputation; reputation ensures quality," SYIC provides high precision tool accessories and customized service to countries worldwide.

Grow with Sustainable Development Goals

Based on the core spirit of "sincerity managing," we value sustaining and organize fairly with a concern of human and natural resources through taking part in community participation and engagement, to achieve the goal of sustainable development.

Insist on quality

High quality is necessary to win customers' trust. With the core value "Quality creates reputation; reputation ensures quality," all our product processes starting from R&D, manufacturing, shipping to after-sale service conform to ISO9001 and ISO14001 standards. SYIC has invested in high-end equipment and measuring instruments from Japan and Europe and implemented the training for staffs of all departments. We always insist on "Quality is always our first priority." To meet the fast-changing market demands, SYIC has never stopped improving and developing high value innovative products to create the utmost manufacturing capacities for customers.

New products research and development

For 40 years, SYIC has been regarded as an expert of tool holders. We stay innovative in new products research and development. Our products are sold in over 40 countries and SYIC has applied patents in many countries including the United States, Germany, Japan, South Korea, Turkey, Switzerland, Spain, China. We make steady progress on products innovations and release at least 3 products every year. We provide customers with best machining solutions and help them optimize machining performance.

Our aim is continuing making the new products with better precision, greater balance and higher rigidity, providing highly productive machine tools and accessories to every customer. In a market environment with rapid progress, we never stop improving our products. As receiving the recognition from customers worldwide, we are certain SYIC will be the one heading toward a great future with you.

Solve your machining problems

SYIC helps to break through your challenge.

The research and development team in SYIC is committed to developing high precision products to optimize the machining process and offering the professional technical service. With the experienced technical professionals, products are developed in response to different types of industries. We can customize all products to achieve customers' demands from different industries including machining industry, mold and die industry, aerospace industry, automotive industry and energy industry. We offer the most professional and technical service, effectively solve your machining problems to create the maximum production efficiency.

It's been our goal to achieve professional product development and stable product quality. We understand your demands, work with you and create a win-win business together!

Sales service

SYIC is here ready to provide the best service for you! Our passionate team members care about your productivity. With the professional knowledge, we always support you whenever problem arises. We can supply you both regular and exceptional products to achieve your goal.

Social networking websites

Eight social networking websites offer limitless service to customers. Either technical information or product features can be searched immediately.

Machining demonstrations & product workshops

Machining demonstrations and product workshops are held regularly to build a strong sales team, creating a win-win business with customers.

Participation in international exhibitions

SYIC participates in international exhibitions to promote our products and builds a global sales network.

Business culture

In order to optimize employees' ability, SYIC focuses on professional knowledge growth and education providing training and development programs that the employees can learn further knowledge and skills to expand their expertise. Since 2015, as certified to TTQS Taiwan Training Quality System in bronze, we are much certain that the whole team is able to keep growing with each other.

The wellness of every employee is important to SYIC. Health examination is given regularly to ensure everyone in good health condition. Furthermore, colleagues are encouraged to join sports clubs inside SYIC. Participating athletic and dynamic activities can make lives more colorful and energetic and help to meet the balance between work and life. Every year also SYIC holds blood donation activity to give back to society.

Sales network covers 5 continents in the world

As a Taiwan-based company, SYIC aim for reaching customers in the global market. With professional technical capacities, we continue to release high precision products, improve customers' machining performance and excel in the world market.
