WEI FENG RUBBER HOSE

History of the Company

1979

Wei Feng Rubber Company Ltd. was incorporated in 1979, in Changhua county. The major products were rubber hoses and variable extrusion designs.

1988

Obtained CNS Certification. Started production of regulated gas hoses.

1998

Purchased Information Management System. Fully integrated & computerized the system.

1999

Passed the ISO 9002 Quality Assurance. Promoted Standardization and Quality Management.

2001

Awarded research funding from Industrial Affairs Office of the Department of Economics under "Plans to Elevate Competitiveness of Traditional Industrial Products".

2003

Certified ISO 9001: 2000 Quality Assurance.

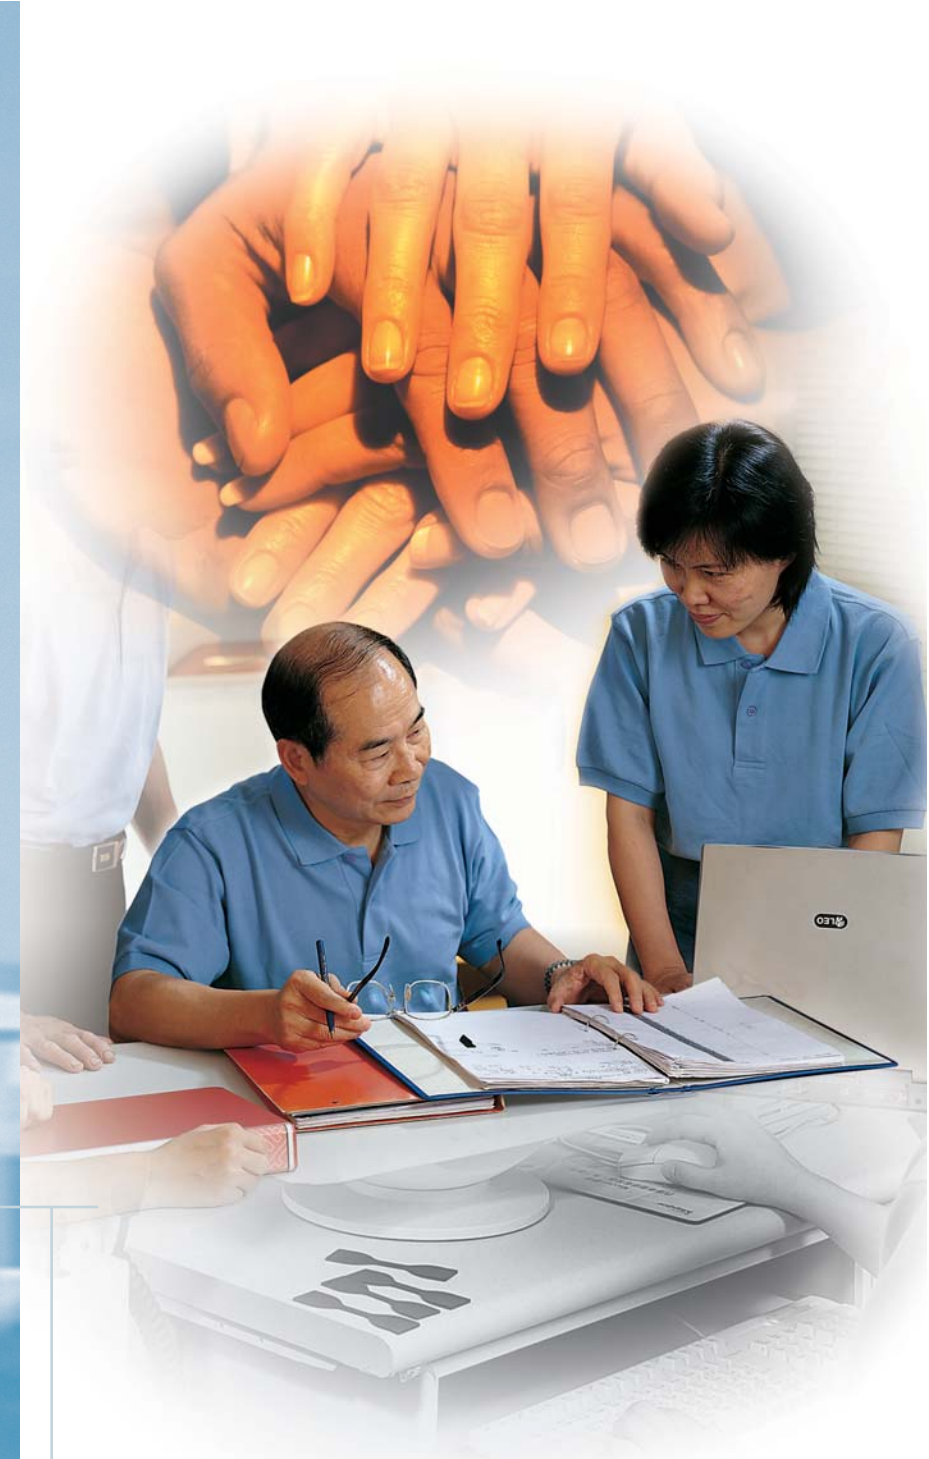

2005

Meets CNS 9621 L.P. Gas Hose. Certificate no. D53214.

WEI FENG

Management Principles of the Company

- ◎ **Consistent; Reliable; and Credible.**
- ◎ **In Taiwan Long Term; In Business Long Term.**
- ◎ **100% Environmentally Conscious; 0% Pollution.**

Research & Development

Facing an ultra competitive market and a dynamic economic environment , we realize that the only way for us to stay ahead of the competition is to continuously innovate and upgrade our products, as well as improving manufacturing technology.

Professional Maker For Rubber Products

WEI FENG

Research & Development

Based on implementation of the ISO 9001 Quality Assurance, we strive confidently and with great expectations toward our goals of " Consistent; Reliable and Credible, In Taiwan Long Term, and In Business Long Term.

Products of the Company

Rubber parts play a vital role in heavy and light industries due to their wide applications such as household appliances, transportation, medical equipments, heavy machinery, electrical cables, sporting equipments, fuel carrying, aerospace and military. They are an integral component of many parts and accessories in almost all industries.

Excellent Quality ; Competitive Prices ; Customization

We specialize in manufacturing all kinds of rubber products like rubber hose, rubber tubing, pump hose, gas hose, heater hose, steam hose, O-Ring and variable extrusion designs. Materials range from EPDM, NBR, SBR, VITON, NR, PU, PVC, SILICONE and other synthetic rubber.

Consistent; Reliable; and Credible.

Products of the company

SILICONE BRAIDED HOSE

APPLICATIONS :

- ⊙ Turbine Supercharger And Coolant
- ⊙ Hot Air Ducting
- ⊙ Industrial Cleaning, Cutting, Finishing, Casting Use
- ⊙ High Temperature : 220°C (428F)

FORMED HOSE

APPLICATIONS :

- ⊙ Motorcycle Parts
- ⊙ Auto Parts
- ⊙ Fuel/Oil Hose
- ⊙ Radiator Hose
- ⊙ Any Custom-made Products Are Acceptable

MOLDED PARTS

- ⊙ O-Ring
- ⊙ X-Ring
- ⊙ Flat Ring (Washer)
- ⊙ O-Ring Cord
- ⊙ Seals
- ⊙ Packing

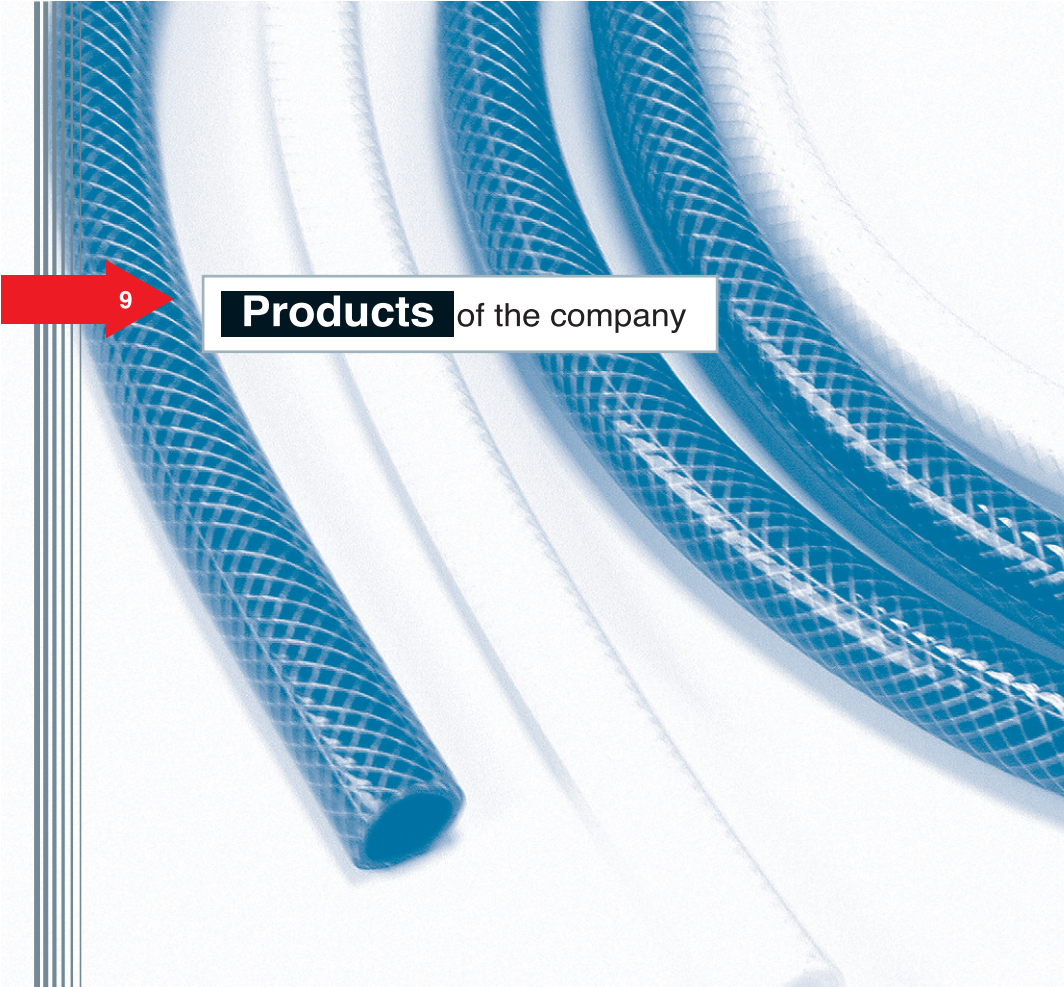

Applications :

- ⊙ Heating Wire
- ⊙ Electrical Cables
- ⊙ Fluid & Beverage Transportaion
- ⊙ Food Processing
- ⊙ Household Appliances
- ⊙ High Temperature Resistance (280°C)

SILICONE RUBBER TUBING

Products of the company

PLY HOSE

APPLICATIONS :

- ⊙ Water Hose
- ⊙ Oil Hose
- ⊙ Gas Hose
- ⊙ Heater Hose
- ⊙ High Pressure Air Hose

PP / NYLON / COTTON OVERBRAIDED HOSE

APPLICATIONS :

- ⊙ Mini Air Compressor
- ⊙ Welding/Cutting Appliance
- ⊙ Fuel/Grease Carrying
- ⊙ Gas System Service

WATER / FUEL / STEAM HOSE

PUMP HOSE (W.P.: 150 - 350 PSI)

APPLICATIONS :

- ⊙ Mini Pump
- ⊙ Foot Pump
- ⊙ Hand/Floor Pump
- ⊙ Mini Air Compressor
- ⊙ Car Tire Inflator

CUSTOM-MADE RUBBER PRODUCTS (SPONGE & SOLID RUBBER)

APPLICATIONS :

- ◎ Auto Accessories
- ◎ Car Door Sponge
- ◎ Water Proof Door Rubber Buffer
- ◎ Glass Moulding Seal
- ◎ Hand Grip

Products of the company

WATER / FUEL / STEAM/SAND BLAST HOSE (CAMBRIC SURFACE)

APPLICATIONS :

- ◎ Water Suction, Discharge Use
- ◎ Fuel Oil Transfer
- ◎ Industrial Cleaning, Cutting, Finishing, Casting Use
- ◎ Auto Washing And Steam Cleaning, Temperature Range Up To 160°C
- ◎ Reinforcement With Heavy Duty Synthetic Yarns And Iron Wire
- ◎ Abrasion Resistance, Chemical Acids And Alkalis Resistance
- ◎ Good Ozone Resistance, Good Heat Aging
- ◎ Hoses With Nipple, Flange Or Coupler Are Acceptable
- ◎ Any Size Up To 14 Inches Are Available Upon Request

NATURAL RUBBER TUBING

APPLICATIONS :

- ◎ Sporting Equipments
- ◎ Medical Care
- ◎ Decoration
- ◎ Bike's Valve
- ◎ Industry Parts

Business Direction and Outlook

Focus on the development of rubber products with advanced technology and higher value. Provide rubber components suitable for various industries.

Further elevate competitiveness and adaptability in the overseas market in lieu of Taiwan's entry into WTO. Establish global presence through overseas investment and strategic partnerships.
